What is The INVICTA Project?

The INVICTA Project provides funding for military veterans and first responders experiencing traumatic brain injury and post-concussion symptoms to receive brain and body restoration treatments at no cost to them. By supporting care that uses less invasive approaches and cutting-edge technology, the program helps those who have selflessly served our nation and communities.

What is The INVICTA Gala?

The INVICTA Gala brings the mission of The INVICTA Project to life through an unforgettable evening of hope, heroism, and healing. Guests come together to honor our nation's bravest and raise critical funds that make this care possible.

Featuring an inspiring keynote, live and silent auctions, and tributes to Medal of Honor recipients, the evening celebrates service and sacrifice—with every dollar raised directly supporting treatment through The INVICTA Project.
